Scripts measure. A critic judges.

7.

The pass mark for a rendered image, out of 10. Six criteria; idea and hook count one and a half times.

Source: data/rubrics.json, stage visual

The critic sees only the render.

The art-director agent has two tools, Read and Glob. It judges the PNGs and the measured facts, never the HTML.

Critics are tested on known answers.

7/

In the 30 Oct 2026 calibration the art-director caught 7 of 7 planted flaws and passed 3 of 3 strong covers.

A FAIL never passes.

A piece gets three attempts. compose.py refuses scores that differ from the critic's verdict file.
